**2nd dog in same enclosure

approx. 10% discount on 2nd dog's fee

Maximum 2 dogs in a run or cage, and subject to approval by LOAH based on individual dog size. (for example 2 dogs can be boarded together in a run, XL or L cage—depending on size of animals)

Cat boarding

Daily Rate

Maximum 1 cat per condo unit, but 2 units may be booked for 1 cat for extra space

Single condo \$26.00

Second condo (approx 10% discount on 2nd condo)
(\$23.00/nt)

Corner condo unit \$28.00

Long term boarding dog or cat

Stay for 10 nights, get 11th night at no charge.

Boarder baths are given at a discounted rate if your pet stays for 2 or more nights and range from \$29.00-\$45.00. These are basic cleansing baths. We encourage you to speak to our groomers about scheduling a full spa day if your pet is a full coated breed, or requires extensive brushing or combing.

Boarding Policies

1. Vaccination requirements

Boarded pets must have current immunizations for their safety and the safety of our other patients and staff.

Dogs:

DHPP (Distemper, Hepatitis, Parainfluenza and Parvovirus)
Bordetella (Kennel Cough), Canine Influenza (both H3N8 and H3N2 strains of Influenza), Rabies

Cats:

FVRCP (Distemper, Rhinotracheitis and Calicivirus), Rabies

2. To prevent infestation of the premises, pets entering the hospital with external parasites (fleas or ticks) will be treated upon arrival at the owner's expense.
3. Any condition or illness that becomes apparent during your pet's stay in the hospital will be treated. Reasonable fees will be charged for drugs and services.
4. Feeding:
 - a. We feed our dog visitors Purina EN, a dry food that is easy on their digestion, and is appropriate for all ages and sizes. If your pet is on a special diet, you are welcome to bring it. We recommend you pre-bag and label your food with the date to be fed, am/pm if eats twice a day, and please let us know what the diet is. Our cat visitors are fed dry Science Diet. We are happy to feed your cat something special from home if you would like to bring it.
5. Medications:
 - a. If your pet requires medication while staying with us, a veterinary technician will administer them according to your veterinarian's instructions. There is an extra daily fee for giving medications, depending on how often it is to be given, type of meds, etc. Please be sure the medication bottles are labeled with the name of the medication, strength, how often it is to be given, and let us know at check-in when the next dose is due.
6. Any personal belongings that are left with the animal must be properly labeled, and must be washable in our washer/dryer. Bedding left must be washable, therefore no overstuffed beds can be accepted. We provide washable matts and bedding for each boarding pet.
7. Animals will be admitted and dismissed only during regular office hours. We do not dismiss boarders on Sunday.
8. If you have scheduled a bath for your pet during their stay with us, baths are done the morning of dismissal, and will be at a discounted rate if staying for 2 nights or longer. (see fee schedule) Pick up time for boarder baths is between 3 and 6pm.

Why board your pet in a veterinary hospital?

Lake Olympia Animal Hospital provides boarding as a service to our clients and their pet family members. Many of our boarders are patients with special needs—extensive medications, special diets, extra care due to illness or chronic conditions, etc. All boarders receive a brief intake examination by one of our veterinarians the day of arrival. Any medications needed are administered by a veterinary technician, and all pets are closely monitored during their stay. If a patient in our care were to become ill, we are available to start treatment and administer whatever care or medication that is needed.
